

The all-in-one platform for the health and safety of your community

WellCheck for Government is the only all-in-one critical event management platform that offers safety alert systems, health & wellness screening, and verification of vaccination status.

Our platform was made with the safety of communities in mind, with years of experience providing active shooter alert notification systems and health & wellness screeners to numerous governmental agencies across the country.

The WellCheck platform now offers daily wellness screening, vaccination verification, and a testing upload tool to verify negative COVID-19 test results ensuring the health and safety of your employees and guests.
